

AUTOMATION CONTROL

For companies who specify equipment and processes that require automation.

Denatec provide Automation Control for almost any application to improve efficiency and implement safer working systems.

- ✦ Improved quality & production
- ✦ Real time monitoring
- ✦ Control Panels, PLC Systems & HMI Displays
- ✦ Pneumatic, hydraulic & electrical actuation
- ✦ Automated pressure control, fluid & process management
- ✦ Integrated safety systems

Designed with the client's equipment and safety in mind, these systems are configured to carefully manage and control each parameter, providing all the operational and safety requirements needed.

- ◆ Fully Automated control
- ◆ Automation control with manual intervention
- ◆ Control panels, PLC's & HMI Displays
- ◆ Increases efficiency
- ◆ Programmable function cycling & datalogging
- ◆ Integrated safety control
- ◆ Improves safety monitoring
- ◆ Reduces human error

All equipment is subject to a comprehensive Factory Acceptance Test before being delivered to the customer.

All equipment is subject to a comprehensive Factory Acceptance Test before being delivered to the customer. Denatec carry out the positioning, siting and installation of the equipment before completing a rigorous Site Acceptance Test. (SAT).

Upon successful customer sign off, Denatec carry out formal training in the correct and safe operation of the equipment, issuing the final technical documentation and certification upon completion. Written Schemes of Examination can also be provided if required.
